

One-Day Training Seminar

AM - Data to Science (D2S) Open-Source Online Platform UAV Processing Software PM - UAV Process Checklist, Point Cloud Viewer

Wednesday, March 4, 2026 9:00 a.m.

Registration will begin at 8:30 a.m. ~ Lunch is on your own

**Tippecanoe County Health Dept – Large Conference Room
1950 S. 18th St. Lafayette, IN 47905**

Presented by:

Purdue University Civil Engineering D2S Team
Captain Rob Hainje – Tippecanoe County Sheriff's Office

About this seminar:

What is D2S? The Data to Science (D2S) platform is an innovative initiative designed to facilitate data sharing and collaboration, specializing in unmanned aerial vehicle (UAV) data. D2S allows users to process UAV images into a point cloud format from a free open-source platform offering a data repository without any cost barriers. Originally designed for agriculture and forestry research, D2S found that its unique features and tools afford capabilities for law enforcement utilizing UAV's. After lunch, we will cover the UAV process checklist that law enforcement should be utilizing to document all processes and evidentiary records involving UAV scenes. Finally, we will demonstrate how to utilize data from D2S, CloudCompare, and other point cloud sources in your UAV documented scenes.

REGISTER TO ATTEND [HERE](#)

\$50 for members / \$75 for non-members

Attendees will be invoiced and provided with a W9 after the training.
